Dear fellow Labour Councillor,

RE; LABOUR MEMBERS OF LICENSING SUB-COMMITTEE

I wish to convey to you my concern at the damage caused to the Labour Party nationally by the widely reported decision to refuse a licence to the Fantasy Bar. People in public life should practise what they preach or desist from preaching it. If Labour Councillors fail so to do, the Party loses its moral advantage against Tory sleaze and hypocrisy. Consequently only Councillors whose own private lives are above moral reproach should preach public morality, including condemning female nudity.

Yours fraternally,

Cllr E Goodman
