Dear fellow Labour Councillor,

RE; FILM "CRASH"

I urge you to grant this film a certificate. Few other countries have film censorship. (It has been abolished in the former communist States of Eastern Europe). This film has already been shown in public cinemas throughout France, without ill effect. As Mr Mitterand, the late socialist President of France, stated "the State has no right to prevent adults from seeing what they wish." A local authority is an arm of the State.

Yours for freedom of expression,

Cllr E Goodman  
Chair of CAC
