Sir,

RE: PROPOSED REFORM OF LAW ON SEXUAL OFFENCES

Enclosed is a copy of a report from "The Times" of 16th June. CAC would like to have input to the review, because some sexual offences have publication consequences. It is a criminal offence in England, for instance, if more than two persons are present during a homosexual act. This means that any photographing or video recording by a third party makes the act illegal.

Please therefore let us know how we can make proposals to those conducting the review.

Yours for freedom of expression,

E Goodman
Chair of CAC
