Dear Sir,

FREEDOM OF EXPRESSION

We understand that you oppose State censorship. We therefore draw your attention to the fact that the Secretary of State for Culture has proscribed the satellite television station "Eurotica" based in Paris. The United Kingdom is the only country to have done this. It means that decoders and advertisements for this service are banned in Britain and UK firms are prevented from having dealings with the channel.

It is ironic that Eurotica shows gay material one day a week and has been criminalised by an avowedly gay Minister !
Qui bono ?

Yours faithfully
