Dear Tuppy,

Many thanks for your letter and enclosed "Vision". I have just returned from a week in Frankfurt, where there are official window-display "Eros Centres" near the main railway station. It is high time spineless British politicians tackled the subject. You seem to be doing good work with the Liberals.

I gave some telephone advice to Jones the Sex Shop owner. Regarding the Web Site, I agree that it must list all the common law offences mentioned in the SFC draft law with comments explaining why they must be repealed. Please confirm by sending me the list with your comments on each law, which I can then amend. This is better than me doing the first draft as my language will be legalese and the descriptions must be interesting ! When I have received your draft, I can send you my revisions and we can then, if necessary, meet in London in August to discuss things.

Best wishes,

Ted Goodman
