Dear Mr Johnson,

CENSORSHIP

Thank you for your letter of the 12th March. We disagree with the contents.

Urination and defecation are just as normal as copulation, which the BBFC allows.

The final ruling in the leading S&M case of R v Brown (the "Operation Spanner" case), which went to the European Court of Human Rights, only prohibits serious injury (not anything beyond trifling). In addition, consensual restraint (bondage) is undeniably lawful and there is therefore no arguable requirement on the BBFC to prohibit its depiction.

Yours sincerely,

**E Goodman
Chair of CAC.**
