Madam,

LAP-DANCING CLUBS

You are reported as stating that these lawful venues constitute "harassment". That is wrong. Females pay the management to be allowed to perform for and receive fees from customers. To deny the dancers this right stops their freedom of expression.

It is sad that a former libertarian should espouse man-hating authoritarianism. Prohibition or drastic limitation of legitimate outlets for unrequited male sexuality (such as lap-dancing clubs and prostitution) will drive the British sex industry underground into the hands of racketeers. In addition, making commercial sex less accessible will increase sexual molestation, rape and sex tourism.

Yours.
