Madam,

ADVERTISING BY PROSTITUTES

We urge you to reconsider your planned criminalisation of such material. Prostitution is lawful and practitioners therefore have a human right of freedom of expression, including advertising. If not, they will be forced to resort to street-walking.

Trafficking is a criminal offence. To ban all prostitution advertisements, however, because some may relate to trafficked women is akin to prohibiting all cars because some people drive dangerously.

Yours,

E Goodman
Chair of CAC
