Dear Mr. Green,

Thank you for your letter of the 16th January 2013. We are disturbed by its content.

The task of the BBFC is to prevent illegal material., not to enforce the wishes of "the public" ie the majority. That destroys minority rights. The fact that most people disapprove of certain (lawful) material does not mean that the minority should be denied access to it. The human right of freedom of expression must not be destroyed by the tyranny of the majority.

yours sincerely,

**E. Goodman
Chair of CAC**
