**Dear Mr Collins,**

**DIGITAL ECONOMY BILL**

**Censorship of the internet is as unacceptable as Press censorship. This Bill should, therefore, contain no unrestricted power to block access to websites. No other Western country does so.**

**In any event, the British Board of Film Classification is answerable to no-one but itself and thus should not be entrusted with legal power.**

**Please oppose the amendment to this Bill just proposed by the Secretary of State for Culture.**

**Yours sincerely,**

**E. Goodman**

**Chair of CAC**
